To Whom It May Concern:

I would like to take this opportunity to recommend the services of Benchmark Security Solutions, owned and managed by Mr JD Greensitt, who provide security guarding and access control at KDUK.

Although the control of security has only recently changed to Benchmark, the site has experienced a massive improvement in the quality of the security provision, from the national company previously employed. The attitude, appearance and professionalism of the guards is of the highest quality. In my view this level of professionalism is directly linked to Mr Greensitt being a Security Industry Authority trainer, with links to his own training company as well as him being able to bring a wealth of relevant skills and expertise from his Police service.

What has again proved invaluable to me has been the ability to contact Mr Greensitt directly, no chasing of area managers who are only able to meet monthly. It is very comforting to know that if I need to speak or meet then it is more often than not a same day service. This level of customer service was perhaps best evidenced by the number of visits and the length of time Mr Greensitt spent in consultation with ourselves on site.

I feel that we now have a professional customer orientated security company working with KDUK, who have been able to create bespoke packaged based upon our real security requirements.

I have no hesitation in recommending Benchmark Security Solutions to any business users and would welcome any enquiries as to their suitability.

I can be contacted on the number above or alternatively by mobile on 07970 599156
